Allworx Tx 92/24 Expander
Expander Features

The Allworx Tx 92/24 Expander is the perfect solution for any business who needs an array of one-touch features or the ability to monitor or route a high volume of calls directly from their phone. Up to three Allworx Tx Expander units can be connected to any Allworx 9224 IP phone for an additional 24, 48, or 72 PFKs – offering you access to a total of 96 PFKs in one single integration.

Each PFK on an Allworx Tx Expander can be programmed to perform a wide variety of functions which are activated at the simple touch of a button.
