Reach™ Mobile SIP Client

Allworx Reach™ takes you out of your office, making you more productive when mobile by bringing the rich functionality of your Allworx phone to your iOS or Android device. And Allworx Reach enables you to be connected from anywhere you want to work — from across the room to across the globe — by offering access via both Wi-Fi and cellular data networks.

Designed by Allworx

Because Allworx Reach is designed exclusively to work on Allworx systems, setup is easy, it integrates seamlessly, and works flawlessly, combining effortless communications with complete mobility.

Allworx Reach is a new licensed option within every Allworx server installed with System Software 7.5. Best of all, no additional hardware is needed for your system. Allworx Reach licenses are offered in cost-effective groups for small or large implementations.

Take a look at some of the features of Allworx Reach on a smartphone:

Apple iPhone (iOS)

Android smartphone
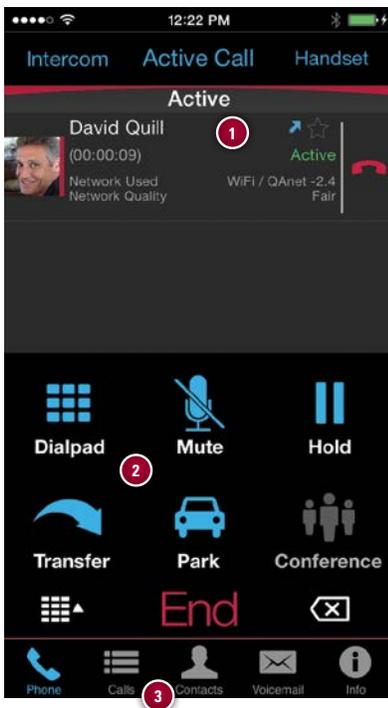

1

The Active Call window gives you a wealth of information.

2

Intuitive and easy to read, all Allworx Reach functions are at your fingertips.

3

Call History, Contacts and Voicemails are just a press away.
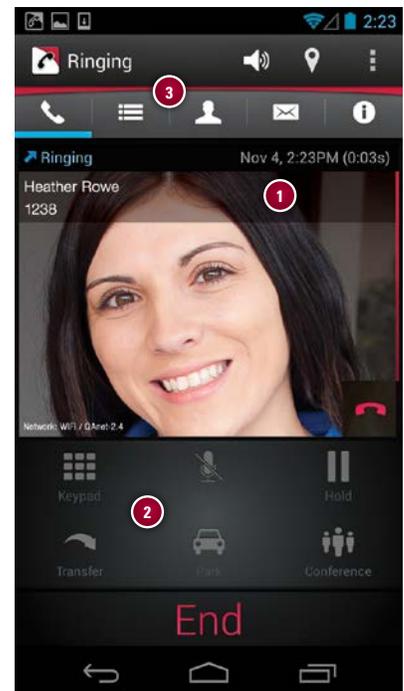

Achieve new heights with Allworx Reach™

Take a look at some of the cool features of Allworx Reach™ on a tablet:

Apple iPad (iOS)

1 Allworx Reach maximizes its smart user interface to make day-to-day calling effortless, providing information and options to simplify your life. Manage your calls and activities from a single, easy-to-use intelligent interface.

2 You can simultaneously make and receive multiple calls, transfer and conference them together from the large, visual call windows. Android users swipe side-to-side to change windows.

3 Almost every Allworx function is at your fingertips, including seamlessly transfer-ring any call, parking, or holding calls. You also have separate audio controls.

4 Call History makes it easy to view and return any incoming or outgoing call as well as missed calls.

5 Allworx Reach allows you to place calls from the internal Allworx system contacts list or your local contacts contained in your phone or tablet. As you dial a number, Allworx Reach searches all your contact lists for any matches, improving your calling productivity. You can also see every Allworx system user's presence along with the status of their Allworx phone and Allworx Reach device.

6 Manage your voicemails with ease. Listen to any message in any order you choose, and forward or create new messages with effortless prompts.

Android tablet
